

Million Tree Graphics

Here are logos and graphics that you can download and use to promote the Million Tree Challenge and your involvement with it. They can be used on your website, in social media or blog posts, in your newsletter, or in any trade publications you might have.

Just right click (PC) or Ctrl click (MAC) and Save Image As...It's easy and quick.

Please do not distort, alter or re-size them. If you require a different size or layout, simply let us know and we will send them to you.

We also request that you send us a link to, or copy of, the communications using the graphics so we can properly acknowledge you for promoting the Million Tree Challenge!

Tree Counter Widget: The Million Tree Challenge tree counter widget can be added to your website's HTML code. It will show up as a live current counter and visitors will be able to see the progress of how many trees have been planted in the challenge. The code is: `<script src="http://www.milliontrees.ca/js/widget.js">`
`</script>`
